The Promotion Process

Paul D. Ronney
Aerospace & Mechanical Engineering
Past chair and member of the
VSoE Appointment, Promotions &
Tenure Committee
What is the APT?

- **VSoE Appointments, Promotions and Tenure committee**
  - 1 member (full professor) chosen by each department
  - 5 at-large (associate professor) members, elected by whole VSoE faculty
  - 2 Research-track faculty, 2 Teaching-track faculty

- Responsible for making recommendations on appointments, promotions and tenure decisions to Dean of Engineering & Vice Dean for Faculty Affairs

- APT’s decisions are advisory not obligatory, but a strong recommendation for or against a candidate is “typically” adopted at higher levels

- APT’s role is to provide
  - A uniform standard across VSoE departments
  - A 2\(^{nd}\) opinion that might offset unusually critical or lenient Department decisions
  - Independent check on accuracy & completeness of Department’s information
Promotion process – candidate’s role

- For tenure-track faculty, starts in summer at end of 5th year of full-time service (or earlier by request, but generally cannot be later)
- Candidate provides information to departmental committee
  - CV
  - Statement of research and teaching accomplishments & plans
  - Mentoring record (e.g. Ph.D. students)
  - Service (Department, School, University, external) – external shows that you are known & respected by your peers
  - Examples of key publications (≈ 5)
  - Sometimes candidates are invited to recommend names of persons to write letters of recommendation, more often Department selects all referees
- All information goes into a “black box” – no further input from or discussion with candidate
- Suggestion: study UCAPT manual (this is the rule book for the promotion evaluation process):
  https://policy.usc.edu/files/2014/02/appointments_promotion_tenure.pdf
Promotion process – Department role (1/2)

- Department chair appoints Departmental committee – 3 members (for Research or Teaching Track promotions, will include such faculty members)

- Departmental committee duties
  - Recommend referees (subject to approval by Dean’s Office)
    - ‘Arms length’ – no formal relationship – most important
    - Mentors & collaborators – not arm’s length – lesser ‘weight’
    - More ‘weight’ given to referees from top-10 US universities and NAE members
    - Referee letters describe the impact of your work and your stature within the field – most important single set of information
  - Collect quantitative information
    - Web of Science and/or Google Scholar (papers, citations, H-index)
    - Research / teaching funding
    - Teaching evaluations
  - Identify peer group for quantitative comparison – may include peers mentioned by referees
  - Prepare report and provide recommendation to Department
Promotion process – Department role (2/2)

- Department’s tenured faculty (plus research-track or teaching-track faculty, as appropriate) discuss report / recommendation & votes
- Department Chair prepares memo
  - Candidate’s fit with the Department
  - Summary of Department’s discussion and result of vote
  - Chair’s personal recommendation
Promotion process – APT role – tenure-track

- APT Chair (elected by APT committee) appoints subcommittee for each candidate – 3 members
- Evaluates dossier prepared by Department
  - Candidate’s input
  - Department Subcommittee report & supporting information
  - Department Chair’s memo
- APT does **not** collect additional information, but may ask for clarifications or corrections to data in dossier
- Prepares report and provides recommendation to full APT
- APT discusses report / recommendation & votes
- APT Chair prepares memo for Dean
  - Summary of discussion
  - Result of vote
APT role – Research & Teaching Tracks

- Evaluated by APT “Executive Committee” only
  - APT Chair
  - 1 other tenured APT member
  - 2 Research or Teaching faculty members as appropriate
- Executive Committee discusses dossier prepared by Department & votes on candidate
- APT Chair prepares memo for Dean
  - Summary of discussion
  - Result of vote
What’s next?

- Dean prepares recommendation based on outcomes of Department and APT actions + his/her own opinion
- For Research- or Teaching-Track faculty, the VSoE Dean’s Office is the last step
- For Tenure-Track faculty, University-level APT committee (UCAPT, within Provost’s office) evaluates information and provides yet another recommendation
- Board of Trustees has the last word!
Expectations for promotion

- Be recognized by leaders in your field as a ‘likely future leader’
- Continue your Ph.D. and/or postdoc work, but have at least one identifiable new area of strength started at USC
- Collaborations are fine, but have work that is uniquely yours
- Be at least in the middle of your peer group in terms of quantitative metrics
- More funding is always better, but key factor is, “is the candidate’s funding (past, current and forecasted) sufficient to support his/her agenda?”
- Have at least average teaching evaluations
- Show some ‘presence’ in your community
Associate to full professor promotion

- Unlike Assistant → Associate promotion, no set timeline but typically 5 – 6 years later
- Process essentially same as Assistant → Associate
- Expectation is that you have established yourself as a leader in your field, rather than just showing that potential
- Also expectation of considerable service record
Suggestions

- Attend as many conferences as possible; present any quality work you have, shake hands, network – **establish yourself as a ‘player’ in the field** (and don’t annoy people…)
- Ask officers in relevant professional society (IEEE, ASME, ASCE ...) to appoint you to conference program and technical subcommittees
- Volunteer to be your department’s seminar coordinator and **invite people who may be good referees for you**
- Ask relevant NSF (or other funding agency) program officers for invitation to be a panel reviewer – **learn how panel review system works and what ‘sells’**
- Come to my workshop on ‘Writing Compelling NSF Proposals’ – Sept. 15, 12:00 noon – 2:00 pm, location DML 240
