MEMORANDUM

TO: VSoE Faculty

FROM: Maja J Matarić 
Senior Associate Dean for Research

RE: VSoE Research Innovation Fund 2nd Call for Proposals

DATE: March 26, 2008

On September 27th, 2007, VSoE announced the **Research Innovation Fund**, a new program aimed at fostering novel strategic research directions, projects, and activities in the school. The first RFP was announced in November 2007; and the first set of awards in December 2007. For further details about the Fund and the awards, please see: <http://viterbi.usc.edu/research/info/vsoeinitiatives/vsoe-research-innovation-fund.htm>

The following memo is the second call for proposals for the Fund.

Faculty with novel ideas and collaborations are encouraged to apply to the Spring 2008 Research Innovation Fund Call for Proposals. Examples of activities fundable by this program include: 1) organizing workshops at USC that bring external experts and visibility to the school; 2) establishing an Organized Research Unit (ORU) team and proposal; 3) obtaining pilot data toward strategic identifiable external funding opportunities; and 4) establishing lasting research resources for the school. Other innovative ideas for supporting new strategic research programs are invited.

Faculty of any rank may apply, excluding visiting faculty and those having received an award from the Fund in the past 3 years. To be considered for this award, applications must provide a realistic justification of the strategic value of the grant, demonstrating how the award will make a difference in stimulating new research relevant to the school's priorities or in new attracting research support.

Awardees will have discretion in the budgeting and re-budgeting of funds to meet their research needs within the guidelines of the fund and the terms of the proposal. However, funds may not be transferred to another project. Awards will include fringe benefits but are not assessed indirect costs and are not transferable to other institutions.

A brief (2 page) report of the results of the funded project will be due one year after the award is made.

The proposals should include the following components:

- 1) Title page: project title and list of participating faculty (1 page)
- 2) Project description: brief motivation, background, and project plan (up to 4 pages)
- 3) Budget: brief budget justification (up to 1 page)
- 4) CVs of the participating faculty

All materials should be submitted in electronic form to vsoe.research.admin@vsoe.usc.edu by 9am, Monday, April 21, 2008. It is expected that the awarded funds will be made available immediately.

As in Fall 2007, up to \$50,000 in Fund support is expected to be awarded in the spring cycle, over multiple awards. All applications will be reviewed by a faculty committee, which will provide advisory input to the Sr. Associate Dean for Research and the Dean for final award selection. Questions regarding this new program should be directed to the Sr. Associate Dean for Research.
